WHO WE ARE

Genesis Systems, an IPG Photonics Company, is a recognized leader in robotic systems integration. In business since 1983, Genesis specializes in factory automation to enhance client productivity and profitability through the development and deployment of custom and turnkey industrial robotic systems. An RIA Certified Integrator, as well as AS9100D and ISO 9001:2015 certified, Genesis has robotic solutions in 42 states and 17 countries around the world.

WHAT WE DO

Genesis uses rigorous analysis, detailed design and manufacturing review, and the latest automation technology to ensure your project is a success from installation to ongoing optimization. We take on the tough challenges. Our robotics experts find productive solutions to your unique application requirements to finetune the ROI of your integration and maximize productivity over the life of your robotic systems.

GENESIS SOLUTIONS:

- Robotic Welding
- Laser Solutions: Welding, Inspection (Metrology), Ablation, Marking, Additive, Cutting
- Non-Destructive Inspection
- Robot Vision Systems
- Robot Material Handling
- Automated Cutting
- Robot Material Removal
- Automated Dispensing
- Robotic Tooling
- Custom & Pre-Engineered Workcells

GENESIS SERVICES:

- Connected Solutions
- Virtual Solutions Center
- Automated Solutions Center
- 24/7 Customer Service & Support
- Training

GENESIS IS YOUR SINGLE SOURCE PROVIDER

TRANSFORM YOUR OPERATIONS WITH INNOVATIVE ROBOTIC INTEGRATION SOLUTIONS FROM GENESIS.

Genesis Corporate
Headquarters & Launch Center
8900 N. Harrison Street
Davenport, IA 52806

Genesis Versa Factory
7310 Vine Street Court

ROBOTIC INTEGRATION SOLUTIONS THAT GO BEYOND INSTALLATION

ROBOT AND SYSTEM SUPPORT
Genesis offers robot and system support services to help you maintain peak productivity and find long-term profitability.

- 24/7 CUSTOMER SERVICE & SUPPORT
- SYSTEM DOCUMENTATION
- AUTOMATION PERIPHERALS
- REINTEGRATION SERVICES

ROBOT OPERATOR TRAINING SERVICES
For first-time robot users or seasoned operators, Genesis offers comprehensive training services to empower robot operators to do more for their employers. Genesis training keeps robot operators up to date so they can achieve peak productivity on a daily basis.

INNOVATION COMES FROM EXPERIENCE
GENESIS OUTSHINES THE COMPETITION WITH:

4900+ Robotic System Installations
6500+ Robots Integrated
42/17 Workcells in 42 States and 17 Countries
30+ Patents Related to Robotic Automation
321,000+ Sq. Feet of Manufacturing Space Globally
240+ Employees
AVIATION, SPACE & DEFENSE
For safe, compliant, high quality products, Genesis’ custom and turn-key solutions deliver enhanced efficiencies and productivity in Aviation, Space and Defense operations, even in the most complicated and large-scale applications.

TRANSPORTATION
To meet constant demand for faster, more efficient production, Genesis integrates solutions that deliver highly productive,repeatable, reliable, and precise automation systems.

GENERAL INDUSTRY
Eliminate production bottlenecks, increase production accuracy, and improve product quality: Genesis’ innovative robotic solutions work to realize productivity and efficiency goals.

GENESIS BUSINESS UNITS

ROBOTIC INTEGRATION EXPERTISE INCLUDES:
- Automated Dispensing
- Automated Resistance Welding
- Connected Solutions
- Large Scale Manipulators
- Laser Processing
- Machine Tending
- Material Handling
- Material Removal
- Metrology
- Mobile Platforms
- Non-Destructive Inspection
- Robotic Tooling
- Robot Vision Systems
- Robotic Welding
- Virtual Proof of Concept, Design and Process
- Virtual Reality (VR) Simulation
- Virtual Simulation Analysis
- Weld Distortion Analysis

CONNECTED SOLUTIONS
INDUSTRY 4.0 SOLUTIONS FOR MORE TIMELY, INTELLIGENT DECISIONS THAT ENHANCE MANUFACTURING AND GROW YOUR BUSINESS.

REMOTE SUPPORT
Easy to use web interface and mobile device technology to monitor real time status anywhere, anytime.

INTELLIGENCE CENTER
Get timely information to the right people with automated, configurable machine-to-human and human-to-human communication.

ASSIST
Flexible, highly configurable process control and traceability manufacturing execution software platform.
Genesis understands the interactions between the product, process, and production environment, and what it takes to help our customers consistently produce high quality automated assemblies. By combining Computer Aided Engineering technologies such as variation simulation analysis, weld distortion analysis and other Dimensional Engineering techniques, Genesis offers manufacturers a unique approach to accurate, reliable dimensionally capable fixtures.

**TOOLING EXPERTISE:**

- Tooling Including:
  - Prototype build fixtures
  - Manual operated fixtures
  - Fully automatic fixtures
- In-house tool design and manufacturing
- Dimensional control for optimization of product and Process
- Tooling design optimization with Solidworks 3D CAD and Pro E part modeling software to improve:
  - Operator ergonomics
  - Dimensional capability
- Parts, fixtures & weld path validation with Delmia and WeldPro simulation software to ensure:
  - Load/Unload, robot reach and torch access
- In-house inspection and verification for parts & tools, Romer Arm, Laser trackers and CMMs
VIRTUAL SOLUTIONS CENTER

Proof of Concept, Design and Process

Genesis Virtual Solutions Center plays an important role in the success of your robotic automation project.

AUTOMATED SOLUTIONS CENTER

Offering a dynamic 360° view of Genesis robotic solutions.

Genesis Automated Solutions Center is an environment where past experiences, present solutions, and future technologies merge. From live demonstrations to full blown engineering studies, the latest technology is developed and leveraged in a hands-on approach. Our only goal is to bring you the best technical solution available on the market.

GENESIS PRE-ENGINEERED ROBOTIC WORKCELLS

LEVERAGE PROVEN PERFORMANCE FOR QUICKER ROI.

Leveraging years of application experience, Genesis pre-engineered robotic workcells for welding and inspection have already proven their ability to increase productivity and ROI.

• Proof of Process
• Live Demonstrations
• Engineering Studies
• Process Development & Enhancement
• Product Evaluations
• Non-Destructive Inspection
• Laser Solutions – including Laser Seam Stepper, Remote Laser Welding and Metrology
• Gas Metal Arc Welding
• Pedestal Spot Welding
• 3D Printing – prototype and production part components
• Connected Solutions
• Automation Peripherals including TBI Products
• Machine Vision

GENESIS PRE-ENGINEERED SYSTEMS OFFER PROVEN DESIGN, SINGLE SOURCE RESPONSIBILITY AND 24-HOUR SUPPORT IN A COST-EFFECTIVE SOLUTION.

QUICK IMPLEMENTATION • HIGH PERFORMANCE • PROCESS FLEXIBILITY
